

A Comprehensive Package for Migrant & their Families (AMDA-HAMI Project) is effective from 2 May 2012 in Parsa district by BIJAM with the support from AMDA Nepal focused on reducing HIV prevalence on migrants & their families. There are a six staffs including a district outreach supervisor & five volunteer outreach workers in five VDCs.

**Objectives:**

To control & prevent the spread of HIV in migrants & their families in Parsa district.

**Strategy/Approaches:**

-

Implement behavior change communication interventions at source & transit point increase safe sex through outreach program

-

Provide healthcare services focused on prevention & care of STIs

-

Provide access to voluntary confidential counseling & testing (VCCT) services.

-

Provide condoms & lubricants & skill in use & negotiation.

-

Promote an enabling environment to reduce stigma & support program implementation.
